MONITOUCH

OPC UA server-supported products are now available in the V10 series and TS4000 series!

V10 series

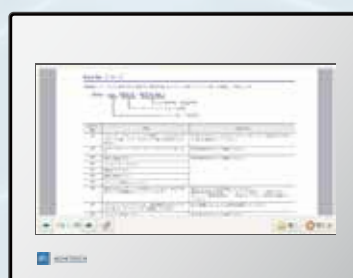

TS4000 series

OPC UA (Open Platform Communications Unified Architecture) is an open international standard communication protocol developed for industrial networks to enable secure and reliable data exchange.

Also introducing function extended models in the TS4000 series!

In response to customer feedback, we've expanded our lineup to include function-extended models featuring a "PDF viewer."
